ABOUT US

At Veetech, we believe that every great infrastructure project begins with strong, reliable connections. Specializing in the production of PVC, UPVC and CPVC pipes, tanks, Taps and fittings, we combine cutting-edge technology, precision engineering, and uncompromising quality to deliver products that last for generations.

With years of expertise and a commitment to sustainable manufacturing, we ensure that every product leaving our facility meets the highest standards of strength, durability, and performance. Our solutions are trusted by homeowners, builders, and industries alike—because at Veetech, quality is not just a promise, it's our foundation.

South Tamilnadu's

Leading & Fast Pipe Manufacturer & Traders

VISION

To be the most trusted and innovative provider of sustainable piping solutions, setting global benchmarks in quality, reliability and environmental responsibility – ensuring that every connection we create strengthens infrastructure, communities and the planet.

MISSION

At Veetech, we engineer world-class PVC, UPVC, CPVC pipes, tanks, Taps and fittings that deliver unmatched performance and durability. By integrating advanced technology, sustainable practices, and rigorous quality control, we aim to protect resources, support modern infrastructure, and build lasting relationships based on trust, excellence, and service.
